If you are not familiar with Tea Tree Oil, Please read what others are saying:

WebMD Touts Tea Tree Oil, and states "Tea tree oil has been used to treat mouth ulcers and abscesses, conjunctivitis, acne, boils, impetigo, psoriasis, dandruff, vaginitis, thrush, septic wounds, cuts and abrasions, carbuncles, pus-filled infections, and ringworm. It is also said to ease the pain of burns and hemorrhoids and help rid the hair and body of lice and ticks."

According to naturopathic and homeopathic doctor Asa Hershoff, DC, of Los Angeles and San Francisco, tea tree oil has antibacterial, antifungal, and antiviral properties and stimulates the immune system.

"It's a reliable antiseptic," says Hershoff, author of Homeopathic Remedies: A Quick and Easy Guide to Common Disorders and Their Homeopathic Treatments. "There just aren't that many substances that have all the therapeutic applications that tea tree oil does."

DERMAFENSE™ is hypoallergenic and formulated with specific concentrations to avoid any reaction in the vast majority of users but discontinue use if redness or itchiness occurs. For external Use Only.
